EDUCATION

Georgia Institute of Technology
Master of Science in Computer Science

Atlanta, GA
Jan 2027 – Dec 2028

Texas A&M University
Bachelor of Business Administration in Management Information Systems

College Station, TX
Aug 2023 – Dec 2026

EXPERIENCE

Solution Consulting Intern
Workiva

Jan 2026 – Aug 2026
Remote

- Led client discovery sessions to translate compliance requirements into technical solution specifications
- Analyzed customer workflows to identify gaps between product capabilities and user requirements
- Partnered with sales and implementation teams to design scalable customer solutions

Business Development Intern
Cloudflare

May 2025 – Aug 2025
Austin, TX

- Built CF Sales Intelligence, an internal AI tool automating client research and sales workflows
- Conducted user interviews with sales teams and translated feedback into product requirements
- Identified prospecting friction through user research and supported significant client pipeline

Cybersecurity Analyst Intern
Texas A&M IT Services

Sep 2023 – May 2025
College Station, TX

- Selected as 1 of 10 interns from 250+ applicants for Texas A&M's cybersecurity program
- Led incident triage using Splunk and Elastic to investigate security alerts and support response
- Built automated alerting systems to improve security monitoring and incident response throughput

PROJECTS

Oversight (Best Consumer Hack - HackHarvard 2025)
AI Government Transparency Platform

Oct 2025

- Built an AI platform making legislation, congressional votes, and political funding accessible
- Developed visualizations connecting bills, representatives, voting records, and political funding
- Led product design and development to ship a working prototype in 24 hours

AggieInsight (1st Place Overall - AWS x CMIS AI Hackathon)
Next.js, AWS Bedrock, Amazon Textract

Feb 2026

- Built an AI interview intelligence platform using Next.js, AWS Bedrock, and Amazon Textract
- Developed a pipeline to extract candidate documents and analyze content with generative AI
- Defined product scope and coordinated engineering to deliver a competition-ready prototype

PawBridge (2nd Place Overall - Product@TAMU Ideathon)
AI Pet Health Platform

Apr 2026

- Designed an AI pet health platform for symptom assessment and real-time clinic discovery
- Led product ideation and feature prioritization from concept to competition-ready prototype
- Developed the go-to-market strategy and product narrative presented to competition judges

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, HTML/CSS
